Chapter VIII.

"I set sail on 24th Day of  
September, 1701 at six in  
the morning...at six in the  
evening I descried a small  
island about half a league  
to the north west..... I  
slept well...I eat my break  
fast...I steered the same  
course that I had done the  
day before....My intention  
was to reach if possible  
one of those islands which  
I had reason to believe lay  
to the north east of Van  
Diemen's Land....my course  
was due east....."

Vansittart Island  
or Guncarriage Island was  
probably so named after a  
well known English Judge

L. Norman's papers

Mr. Vansittart (later Lord  
Bexley) was Chancellor of  
the exchequer from 1812 to  
1822. The Island probably  
takes its name from the  
vessel used by surveyors  
which in its turn could  
have been named after Mr.  
Vansittart.

Vansittart Island,  
formerly Guncarriage Island  
see Calder's Wars etc. p 90  
"about 1826 it was called  
Guncarriage Island, now  
(1876) Vansittart Island."

G.O. 1/48, 10.12.1842 p 362  
reference is made to the  
fact that the Cutter Vansit-  
tart should not have been  
used by Lt.Stokes (of the  
Beagle) for surveying part  
of Bass Strait. (The Vansit-  
tart was supposed to have  
been used entirely for trans-  
porting convicts)
